We, the Class of 1958, wish to express our deepest admiration and trust to the members of the Hancock Central High School Board of Education and the District Superintendent. Without these leaders we would not have the chances and opportunities that we have today. They have diligently worked behind the scenes to protect our interests. For these things, we say "Thank You."

PRINCIPAL'S MESSAGE

To the Class of 1958:

The moment a satellite was shot into space and began circling the earth we were thrust into the Space Age. The impact of this event will greatly affect your future.

You will be stepping into this Space Age after Commencement to take your place as a contributing member of society to help this nation determine the course it will follow in the future. You will be called upon to face problems never before presented in all the history of mankind.

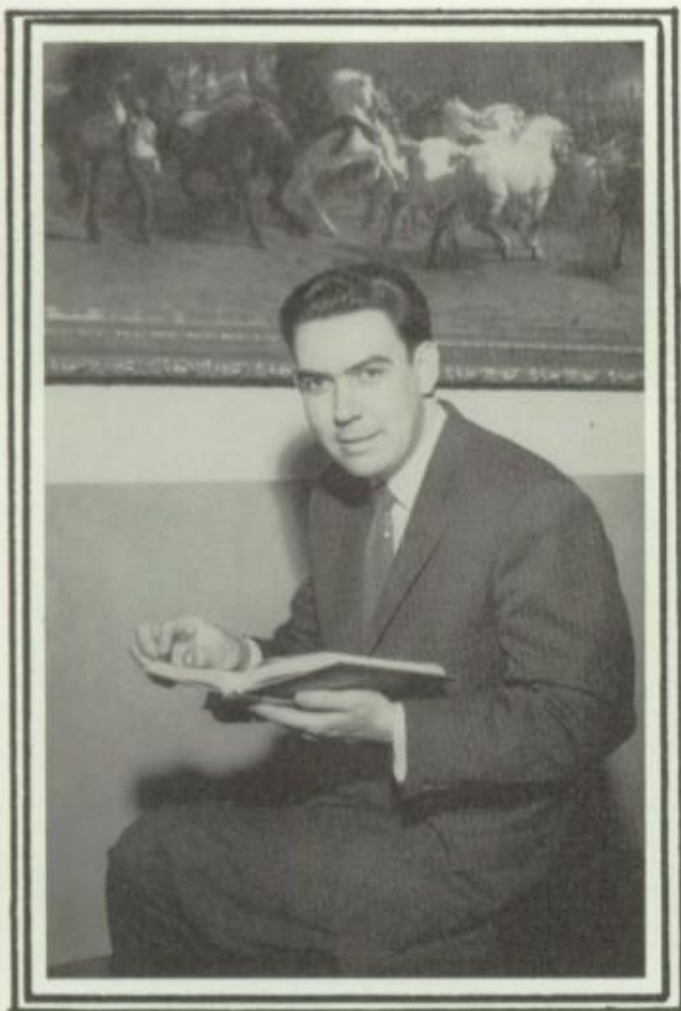

The defense of our democratic society lies in a citizenry whose members have attained an emotional and intellectual balance, high standards of moral and spiritual values and the ability to make intelligent decisions as individuals and as a group. The ultimate responsibility for the welfare of this way of life will rest with you.

Therefore, you will be called upon to recognize your full responsibility for greater effort, to work to the full measure of your capacity and develop your abilities and talents to the highest possible level. By doing this, you not only serve yourself, but also your country.

I am confident that you can and will be equal to this challenge.

My congratulations and best wishes go with you -- the Class of 1958.

Edward S. Onody
